

# Day/Night Wrist Support Solutions

**The WrisTimer® and WrisTimer® PM provide 24-hour support and pain relief for carpal tunnel syndrome, arthritis and tendonitis.**

## Daytime Wrist Support

**WrisTimer** wrist support provides therapeutic treatment during the day to avoid damaging wrist flexion during work or activity, while allowing a healthy range of motion. Adjusts easily for stable and comfortable compression of the wrist and desired range of motion.

## Therapeutic Treatment for Night

**WrisTimer PM** wrist support provides therapeutic treatment during the night while allowing a comfortable fit to prevent flexion of the wrist. The aluminum stay holds the wrist in a neutral position to reduce inflammation and provide support.
