

QUAD/THIGH THERAPY WRAP

TARGETED RELIEF FOR QUAD/THIGH PAIN + RECOVERY

100% DRUG-FREE RELIEF FROM PAIN

Vibrations serve as sensory distractions, disrupting pain signals constantly traveling from your body to your brain and replacing them with gentle massaging sensations.

CUSTOMIZED THERAPY MODES

Three distinct levels of vibration to help provide the perfect level of relief.

SAFE NON-INVASIVE VIBRATION THERAPY

Unlike TENS, vibration therapy can be used by anyone, including those who may be pregnant or with pacemakers.

PROVEN RESULTS

A recent study by the Pain Management Center in conjunction with Brigham and Women's Hospital and Harvard Medical School found Intellinetix vibration therapy may significantly reduce pain among those living with arthritis. Vibration therapy may also reduce inflammation as well as improve joint flexibility and strength.

Patent pending.
