hand

ErgoBeads[®]
cushion and
protect

DESIGNED BY AN ORTHOPEDIC SURGEON

Flexible Support Splint

SmartGlove helps prevent and relieve wrist pain associated with Carpal Tunnel Syndrome, arthritis and tendonitis by encouraging proper hand and wrist position. It features a flexible support splint; washable, breathable cotton material for all day comfort; and a massaging ergoBeads[®] pad under the wrist, which cushions and improves circulation.

Key benefits:

Helps prevent and relieve carpal tunnel syndrome and wrist pain
ergoBeads[®] cushion and protect the underside of the wrist including the pisiform bone

Provides all day comfort & reverses to fit either hand

Ideal for daily activities:

Office work
Repetitive tasks
Gaming
Computer work
