

HEAT + VIBRATION THERAPY

HEATED HUB™

MULTI-SITE RELIEF FOR ENHANCED PAIN + RECOVERY

What makes this wearable

Heat + Vibration Therapy Wrap different?

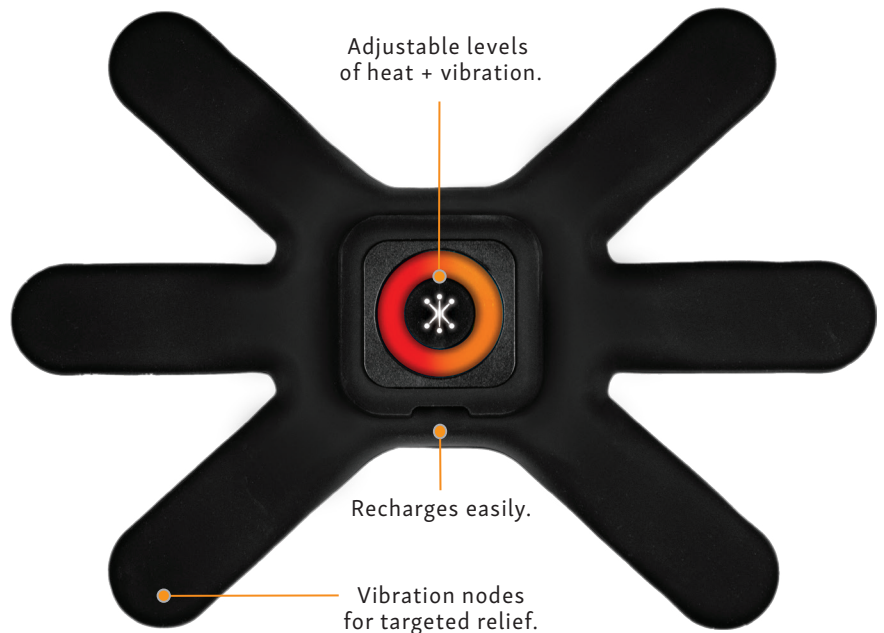

It was designed to combine stronger vibration, a longer battery life, and a higher heat setting than many competitors like Hyperice.

Early reviews are saying ...

The Heated Hub lets users seamlessly select the right amount of heat and vibration for maximum relief.

What are the benefits of adding heat?

This functionality from Intellinetix puts the power of relief in the hands of the consumer like never before and enhances the benefits of these forms of therapy. Among the many benefits include enhanced pain relief, improved joint flexibility and range of motion, reduced inflammation and faster muscle recovery, all customized to the consumer needs and targeted to the specific area of concern.

Heated Hub comes with Intellinetix Universal Wrap to deliver targeted relief anywhere on the body.
